EDMONTON, ALBERTA, MONDAY, MAY 22ND, 1905

No 117

## THE VACANCY FILLED IN THE FEDERAL CABINET.

Hon. C. S. Hyman of London Succeeds the Late Hon. Jas. Sutherland.

Ottawa, May 22.—Hon. C. S. Hyman has been appointed Minister of Public Works and has left for London. He will be sworn in by Earl Grey in Toronto.

W. W. B. McInnes, ex-M.P., will be the next Governor of the Yukon.

Thomas Mackie, ex-M.P., dropped dead at his home at Pembroke today.

## TWO MEN SHOT.

Chicago, May 22.—In a riot tonight over the teamsters' strike, two men were shot dead.

## FARMER SUICIDES.

Port Arthur, May 22.—Andrew Johnston, a farmer in good circumstances put a rifle in his mouth and blew his head off.

## ANOTHER TEXAS BLOW.

Fort Worth, May 22.—A tornado struck here and mills, churches, etc., were destroyed. Several fatalities are reported.

## DEFECTIVE WIRING CAUSES FIRE.

Wilkes-Barre, Pa., May 22.—A big dry goods house here was destroyed by fire. Loss \$300,000. The fire was caused by defective electric wiring.

## TOOK A FALL.

Wiesbaden, May 22.—Empress Augusta fell down stairs today. The incident caused the postponement of the royal family visit to Berlin.

## RESTRICTION REMOVED.

Ottawa, May 22.—It has been decided that defective color vision shall no longer disqualify candidates for commissions in the army.

## WANT THEIR WAGES.

Halifax, May 22.—The men have ceased work in the Port Hood coal mines. C.B. They have received no pay since February.

## THE DESERTED VILLAGE.

Esquimaux, May 22.—Since the destruction of the station by the British troops, grass has grown on the streets and many houses stand empty, no tenants being found for them.

## TWO LADS DROWNED.

Huntsville, May 22.—Fred and Norman Anderson, seven and five years of age, were drowned in Vernon lake today. Their father, James Anderson, is on a trip in the North-West.

## THOS. MACKIE DEAD.

Pembroke, May 22.—Thos. Mackie, ex-M.P., died tonight of apoplexy. He was 68 years old and one of the wealthiest men in the Ottawa Valley. A son, Major H. J. Mackie, is a ranger at Leithbridge.

## JAPANESE IMPRISON WHITES.

Honolulu, May 22.—Striking Japanese workmen have imprisoned a large number of whites and a company of militia in the court house. One has been killed and others wounded in an attack. More military have been sent for. The besieging Japs number 3,000.

## WARNED AGAINST WEALTH.

Windsor, May 21.—The Sons of England paraded in full regalia this afternoon to St. George's church, where they heard a stirring sermon on patriotism and were warned about accumulating too much wealth, and the evil consequences of the latter.

## SEAGRAM WON KING'S PLATE.

Toronto, May 22.—The King's Plate was run at the Woodbine Saturday before an immense concourse of spectators. It was the biggest event ever seen on the course. Earl Grey in choice and four and five-year-olds millions and except was present with members of the Cabinet and other notables. Seagram's horse, Inferno, came first 2-12. "Half Seas Over," who had made the pace for his stable companion, dropped behind Dymally's Will King. Next came the Maid of Marie, Golden Crest and Cross of Gold last.

## Nazareth Waists

ARE WASHABLE.

25c. 25c.

These Waists are the only thing suitable for Summer Wear. Every child should wear them, as they are made to give the children proper support.

FOR SALE AT  
**J. H. Morris & Co.**  
Departmental Store.

THE TRUTH WILL LEAK OUT, but water comes in jobs. If it were the other way we'd all have to be honest and we wouldn't need

## THE PLUMBER.

As things are, however, all we can do is to employ an honest plumber who knows his business—one who will put in good material and put it in to stay. That's what we try to do here. We supply everything necessary for fitting up the bath-room and we do the fitting ourselves.

ALBERTA'S POPULATION.

The Calgary Herald publishes the following as the populations of the new electoral divisions. The figures are far from correct but they are nearer so than anything the Herald has previously published in this connection.

	Town	Rural	Pop'n.	Pop'n	Total
Medicine Hat	3,500	5,817	9,317		
Cardston	1,700	4,765	6,465		
Lethbridge	7,400	4,074	12,104		
Macleod	2,300	7,767	10,067		
Pincher	3,900	2,769	6,669		
Gleichen	3,500	4,599	7,199		
Calgary	10,600		10,500		
Rosebud	2,900	7,644	10,544		
High River	2,900	9,730	12,632		
Banff	2,000	2,457	4,457		
Innisfail	1,150	6,279	7,429		
Red Deer	1,600	3,969	5,569		
Vermillion	500	8,295	8,795		
Lacombe	1,700	7,728	9,428

Peace River		900	900		
Athabasca		1,600	1,600		
Total			173,000		

WHAT THE TELEGRAM THINKS OF EDMONTON.

The Winnipeg Telegram says:

"The Calgary Herald publishes a sketch map showing the boundaries of the Alberta constituencies as prepared by the new Minister of Interior. We have no reason to doubt the correctness of the Herald's delineation, but the result is certainly amazing. From a casual glance one might imagine that the most thickly populated district was immediately around Edmonton and that there was a comparatively sparse settled area extending from Calgary to the boundary, whereas we know that exactly the reverse obtains."

ALBERTA CROPS LOOK WELL.

Calgary, May 19.—General Superintendent Jamieson, of the C. P. R., has compiled the following information with reference to weather conditions and seeding operations as regards crops on the western division for the week ending May 17, 1905.

Crossfield—Favorable; grain doing well; winter wheat up eight inches; spring wheat four inches; oats three inches; barley just starting; very little rain.

Carstairs—Fine; plowing about done; crops growing nicely; prospects good.

Didsbury—Favorable; all seeding completed; crops doing well; prospects good.

Olde—Favorable; grain up three and four inches; nights have been rather cool, but getting warmer; prospects good.

Bowden—Favorable; growing grain in good condition and looking fine; good showers latter part of last week; prospects good.

Innisfail—Favorable; seeding about completed; 12 hours' rain during week; crops in good condition and prospects good.

Penhold—Favorable; small rainfall in middle of week, but turned very warm again; crops doing well and prospects good.

Red Deer—Favorable; seeding practically finished; spring rather chilly for rapid growth; high rain during week; prospects good.

Blackfalds—Favorable; plowing and seeding practically finished; very little rain; early sown grain growing favorably.

Lacombe—Favorable; light showers during week; crops doing very well and prospects good; very high winds during week.

Ponoka—Favorable; seeding, with exception of a little barley, completed and a great deal out of ground and doing nicely; prospects very good.

Wetaskiwin—Favorable; grain practically all in ground, with exception of small amount of barley and oats; most of it up nicely; prospects good.

Leduc—Favorable; light showers of rain on the 11th and 14th; crops in good condition and prospects good.

Strathcona—Favorable; seeding practically completed; three small showers of rain during the week; prospects good.

Okotoks—Favorable; fall wheat up eight inches, other grains 3 in.; no damage; crops looking well and prospects good.

High River—Favorable; fall wheat 4 inches high; early spring grain coming up and prospects good; no damage.

Nanton—Favorable; all grain in good condition; fall wheat about 5 in. high, oats 3 in.; no damage and prospects good.

Clarksburg—Favorable; seeding all finished; fall wheat from six to eight inches high, spring wheat three in.; about two inches of snow and rain fell during week; no damage; prospects good.

Staveland—Favorable; crops all in fine condition; rain and snow during week; 5000 acres under crop; 75 per cent. wheat and balance oats; prospects good.

Levinburg—Favorable about 25 per cent. seeding done; 8,000 acres sown past week; fall wheat about 3 inches above ground; prospects good.

Macleod—Favorable; grain practically all above ground; looking well; present warm weather following recent showers expected to offset effects of cold spell.

Taber—Favorable; 1,360 acres wheat, 500 acres lucerne, balance oats; plowing practically over; good rainfall past week; crops looking prosperous and everything points to good crops.

Lethbridge—Favorable; three days' rain; seeding progressing favorably.

Pincher Creek—Favorable; fall wheat doing fine and growing rapidly; oat seeding nearly over; some showers past week.

Cowley—Favorable; seeding completed; 7,000 acres under crop; abundant rainfall and prospects good.

## PAINT

By the

## CAR LOAD

Ross Bros, Limited

have the largest and best assorted stock of paint in Edmonton. No matter what you want in paints, they have it, and the goods are the best that money can buy. Paints ready mixed for the brush, wall colors, oil and varnish stains. Brushes of every description.

## Cheap Ready Roofing

That any person with a hammer can put on.

## MALTHOID ROOFING

Tested and Tried

Wherever roofing materials are used there Malthoid is king. Always ready for instant use—no paint required. Tin caps, nails and cement for seams furnished free with every roll. These, together with a hammer, are all that are needed to make a perfectly weather-proof roof.

Write for illustrated booklet

**The Paraffine Paint Co.**  
MAKERS OF SATISFACTORY ROOFING

14 SECOND ST., SAN FRANCISCO, CAL.

We keep this roofing in one or two places in rolls of two square to the roll, and its cheapness, and the simplicity of laying it; to say nothing about its durability, will at once recommend it for all classes of buildings.

## Lawn Mowers

We have an up-to-date stock of these in sizes of 14, 16 and 18 in. and our prices are lower than these goods have ever been sold for before in the west.

## Try our 3 in 1 oil

Its uses are too many for us to here enumerate; it is used for every kind of household machinery guns, prevents rust; is a first class furniture polish, and is kept in two sizes 15c and 25c per bottle. No house should be without it.

# Ross Bros. Ltd.

**Rushing the Transcontinental**

From the Toronto Globe:—The President of the Grand Trunk Railway, endorsing the stand taken by the President of the Grand Trunk Pacific Railway declares in a published interview that the work on the latter road "will begin just as soon as specifications are accepted by the Government, and once begun, it will be pushed forward with all due speed, no time being lost in bringing it to completion." Sir Charles Rivers Wilson adds that they have now all the money they require for the work. Anyone at all acquainted with the financial relations in which the two companies stand toward the undertaking and each other will feel no surprise at such a line of remark from the head of the smaller and dominating corporation. General Manager Hays of the Grand Trunk is president of the Grand Trunk Pacific, and the former has guaranteed the bonds issued by the latter as a means of raising the capital necessary to construct the new line of railway from Winnipeg to the Pacific, as well as the important branch line to Lake Superior.

With true British frankness, the Grand Trunk President tells the public precisely why he believes the great transcontinental railway will be remunerative from the outset. "It is known," he says, "how fertile the western country is, what brilliant prospects it has, how settlers are flocking in, and how immigrants always follow a railway." These are not the mere vapors of a reckless promoter, but the intelligent conclusions of one of the greatest financiers and administrators of the day, whose high reputation is absolutely at stake in this enterprise. For two years it has been much in his thoughts in all its aspects, and the determination on the part of the Grand Trunk shareholders to go on with it, at his instance, was the result of protracted deliberations extending over a whole year. Another year having elapsed since the final endorsement of the project, it is most satisfactory to learn from Sir Charles that his faith in it has not abated.

The Grand Trunk president was not a whit too complimentary to the Canadian Pacific when he spoke of "the marvelous success" which has attended its work in settling up the country and earning revenue. When it was constructed, it ran through a vast wilderness. Now it has an enormous local traffic along its main line, and has an immense and profitable mileage in its numerous branches. Sir Charles Rivers Wilson is quite moderate in his statement of the contrast between the situation now and the situation of a quarter of a century ago, and he cannot be charged with a scintilla of exaggeration when he attached great importance to and drew substantial encouragement from what the Canadian Pacific Railway has accomplished, to say nothing of the opportunity to profit by its experience. As the result of long and often bitter conflicts between the Canadian Pacific management and the settlers, the co-operation between them has become much more friendly than it was a few years ago. The modus vivendi thus established is full of interest and advantage for the smart management of a new transcontinental line.

**Construction Begins in June.**

A Montreal Despatch says:—It has been announced that construction work on the Grand Trunk Pacific Railway will commence in June. This means the beginning of a gigantic enterprise which, if completed as projected, will mean the addition of at least 3,500 miles of main line, to the 19,000 miles, in round figures, of track in the Dominion. The conservative estimate of an engineer puts 30 per cent. to this for side tracks and yards which would make in all 4,500 miles of additional track. Mr. C. M. Hays, president of the company stated the other day that the workers who will be engaged in the maintenance and operation of the road will mean 20,000 persons added to the railway employees in Canada. If this number were only paid two dollars a day each, on an average, it would require \$14,000,000 a year to meet their wages and salaries.

Taking for a basis a computation that the new road will extend from Montreal, on the east to Port Simpson, Tuckett Inlet, or any other point on the Pacific Coast and that the distance from east to west is approximately 3,500 miles the material, rolling stock, etc., to be used in the construction and the rough cost of these things will furnish some astounding figures. At 3,000 cross ties to the mile it would take 10,500,000 ties. It would also take 500 men, working steadily for three years to produce them. In all there would be 7,000 miles of rail, that is if the rails used for the main line were placed end to end in a straight line they would reach 7,000 miles. This is an average of 1,322,000 rails or 492,800 tons. In every tie laid there at at least four spikes driven. It would, therefore, take 42,000,000 spikes. There are two angle bars used for every rail and four bolts, four washers and four bars used for every pair of angle bars, which figures up to 2,454,000 angle bars, and 4,928,000 each of bolts, washers and bars. Besides these things there are fish plates, guards and tie plates which would number into the millions. It is estimated 500 locomotives will be required. At an average cost of \$15,000, they would cost \$7,500,000. At an average of \$700 each, 30,000 freight cars would cost \$21,000,000. The passenger cars at \$10,000 each for 500 would come to \$5,000,000. The Grand Trunk has now 400 locomotives in its service, and 28,000 passenger and freight cars.

In addition to these materials and rolling stock there are many other things to be considered in the road.

Bridges and trestle timber, and bridge steel, stations, telephones, awlches, semaphores, water tanks, and terminal facilities. These figure up into the millions of dollars. There would also be fencing, which will cost, it is estimated, on an average of \$425 a mile, which would amount to \$1,487,500. A telephone line extending along the road from ocean to ocean would cost in the neighborhood of \$700,000, for it is calculated that the price of material and the cost of building. The poles alone would come to \$357,500, reckoning that there are 23 poles to the mile, which at an average of \$3 a pole, would make that sum.

There are many other items to be counted in the construction of a transcontinental highway, but what details have been given are sufficient to show the greatness of present day commercial enterprises, and the activity which may justly be expected in Canada for the next few years, as a result of vast railway development.

## THE NEWS OF TO-DAY

## IN CONDENSED DESPATCHES.

Brief items from many sources tell the story of the day's events.

## GREEK MEETS TURK

Athens, May 22nd.—An encounter occurred between a Greek band and a Turkish detachment. Eleven Macedonians were killed and fifty Turks.

## RUSSIA CHANGES SYSTEM

St. Petersburg, May 22.—The old council of war has been abolished and Grand Duke Nicholas has been appointed president of a new council of defence. It is supposed this will abolish anarchy in the army and navy and is looked upon as a most important step.

## FLEET OF COLLIERIES OFF CHINA.

Peking, May 22.—Hong Kong advices report an enormous fleet of colliers along the whole coast, waiting for the summer trade, which has not been heard of for some days. Forty colliers fly the German ensign and others are of different nationalities.

## SKIRMISHING IN MANCHURIA.

London, May 22.—Reports from both Russian and Japanese sources announce continued skirmishes and short manoeuvres between the opposing armies in Manchuria, which seem to presage a general engagement. Dispatches from Harbin report a carnival of drunkenness and dissipation. The emperor has appointed a new provost marshal to restore order in the rear of the Russian army.

## MATRICULATION EXAMS.

Matriculation examinations in connection with Manitoba university began at Alberca College this morning and will continue throughout the remainder of the month. Twelve students are writing. Rev. H. A. Gray is presiding examiner. Canon d'Escham is presiding today in the absence of Mr. Gray.

## A NEW PAMPHLET ABOUT EDMONTON.

Over 500 copies of "Fortility and Prosperity" has been sent out from the office of the board of trade during the last two or three days. These have all gone to individual enquirers, known to be interested in Western Canada, as a result of advertising being done by the board of trade, and by the Western Canada Immigration Association, with which the board is co-operating in migration matters. It is hoped that these pamphlets going directly into the hands of parties who are thinking of moving to the Canadian west, should have considerable influence in bringing a desirable class of immigration to the Edmonton district. The future prosperity and development of this city depends on the development of the surrounding country. The Grand Trunk and Canadian Northern Railways have undertaken to distribute several thousand copies of the pamphlet.

## THE RIFLE ASSOCIATION

The regular joint weekly practice of the Edmonton and Strathcona Associations was held on Saturday afternoon, eighteen members of the Strathcona and nine of the Edmonton Association being present. High scoring was made very difficult by a strong breeze shifting occasionally from the south-east to due south and varying in force. The range being partially protected it was much more difficult to gauge the force of the wind by the range flags than upon an open range, the correct wind eye being obtained by actual experiment and experience. Floating clouds also caused tricky change of light causing high or low shots, in some cases causing the target to be missed altogether so that the better scores of the day show very careful work on the part of those who made them.

The following was the best scores of each association.

Strathcona Association.		
W. H. Pedard	27	23
J. Carmichael	26	28
W. Tweedy	22	27
J. J. McKenzie	25	23
W. H. McMahon	19	27
D. Bisset	27	19
A. Davis	21	21
Range totals	167	168

Edmonton Association.		
W. Pearce	25	31
G. A. Reid	25	28
T. W. Whitehead	31	26
P. McNaughton	27	27
T. A. Osborne	23	22
P. Anderson	23	24
C. S. Newell	26	19
Range totals	180	178

There will be an all-day shoot on Wednesday the 24th inst., weather permitting.

As the Military Rifle League matches begin on Saturday 3rd June and the regulations of this year permit of the counting of the ten highest scores made at the regular practice of each association entering therefor it is requested that all members avail themselves of every opportunity for practice.

**A CHILD MURDERESS****THREW BABY OVER EMBANKMENT.**

Thirteen Year Old Girl Stole Baby Carriage and Made Away with the Infant Occupant.

Toronto, May 22.—Josephine Cass, aged 13, is the confessed murderess of a baby, aged nine months. The child murderer has been in the habit of stealing baby carriages outside Eaton's store. On Friday there were no empty ones, so she picked out the best, which happened to be Mrs. Murray's. She took the child and strapped it and threw it over the embankment. Saturday she told the neighbors she had recovered a baby. Suspicious were aroused and she confessed. She says she got the McGraw-Hill "Kidnaped" which is being played at one of the local theatres.

**EXCURSION TO CALGARY.**

An excursion train will be run to Calgary tomorrow, returning after the sports on Wednesday. The E. & P. will run a special to connect with the west-going excursion train at Strathcona. The special leaves the Edmonton station at 10.15 tomorrow.

**FT. SASKATCHEWAN NEWS**

(From the Reporter)

The pleasant smile of S. A. Dickson, Edmonton, cheered many of his Fort friends on Saturday and Sunday.

S. C. Archibald, of Beaver Hills, has been placed in charge of the creamery there.

The reporter has installed an Improved Typograph typesetting machine.

Wm. Seymour has opened a boot and shoe repair shop in connection with Veitch's harness store.

A large number of Edmonton Masons visited their Fort brethren of the square and compass on Friday evening.

All Liberals are requested to attend a meeting to be held in Langworthy hall for the purpose of reorganization, on the evening of Tuesday May 20th, at 7.30 o'clock.

**CRICKET.**

A good practice game was played on Saturday between teams captained respectively by P. P. Hobson and C. Rea. The result was a win for Mr. Hobson's side by 32 runs. P. Hardisty played a good innings of 44 for the winners, but was badly missed by Lucas at point before reaching double figures or the result would have been closer. Misfielding also cost Rea's side several runs. It is arranged to play married vs. single on Wednesday. If the sides are representative a good game should result.

Scores in full:

P. P. Hobson's Team.

## Lectures to Stockmen.

Calgary, May 19.—The last of the series of meetings, interesting to stockmen and farmers, which have been held by Alexander Hall since the beginning of the stock sale, was held last night.

W. J. Tegellius, of Calgary, was chairman, and introduced as the first speaker of the evening Duncan Anderson, of Highby, who addressed the audience on the subject of "Breeding Heavy Horses."

W. J. Tegellius, of Calgary, was dressed by stating that the old ranching conditions in the West must change. The farmer is fast taking the place of the rancher and the conditions are changing. Would it not pay to raise more steers and fewer butts? asked the speaker. We must produce what the butcher and the consumer requires. The market for beef is larger than the demand for butts.

The time is not far distant when the beef of America will be made in the province of Alberta. The most profitable time to feed the steer or heifer is when the animal is growing. Twenty-eight dollars worth of feed fed to the proper kind of animal will produce 1000 pounds of beef in two years of age. Does this give a profit to the stock raiser? An animal of good heart, good full back, and natural covering or fat for his ideal beef breed. When buying a bull look for those qualities, and the herd will not fail you. The ranchers of this country are just as much manufacturers as are the Massachusetts Co. or other concerns. The rancher's raw material is hay, oats and other food. The finished article is the beef ready for market. Again I repeat, the most profitable time to feed an animal is during the growing period.

At this period of the meeting the speaker called upon Mr. Duncan of Banff, winner of the dressed carcass competition, to explain to the meeting his method of feeding the prize animal. Last fall he commenced feeding three pounds of grain, which was steadily increased to 17 pounds per day just before killing. Last fall Mr. Duncan sold his grain-fed two year old cattle for \$100 per head.

Continuing Mr. Anderson spoke on the subject of breeding heavy horses. The breeder who is raising heavy horses is more sure of a paying investment than the one who produces the lighter grade. Quality is a heavy draught horse means solid straight legs; good bone, well muscled and with a reasonable amount of flesh. Most heavy stallions are too fat. Weight is a desirable article, but it is not preferable to quality. The ideal type of heavy horse should weigh from seventeen to nineteen hundred pounds. Choose your breed and stay with it, and success will result.

In concluding the speaker pleaded for a horse of good (paying) quality, bred from a mare four or five years old and a pedigreed sire with desirable qualities.

Feed the colt liberally and give plenty of exercise to develop bone and muscle. Do not feed the mare in full feed food, but a little of this kind of food will help the yearling colt.

After the address Mr. Anderson, from a stereoscopic view, explained the ideal points of the heavy world horse.

Chairman Tegellius next introduced T. N. Willing, chief weed inspector for the Territories, who gave an illustrated lecture on noxious weeds and injurious insects.

Mr. Willing's address was illustrated with lantern views and was one of the most interesting of the series. He first spoke regarding the poisonous weeds which are to be found in the Territories. The most injurious of these are the water hemlock, wild ginseng, spreading night shade, wild tomato, field horse tail, tall and purple larkspur, loco weed, lupine and snowweed. All of these weeds are very injurious to stock, especially to sheep. They can be eliminated if everyone would take an interest, and as it was in the interests of the stockmen and farmers to see that this was done, the speaker thought an organized effort should be made to do this, before closing his address Mr. Willing gave views of and described some of the noxious weeds we have with us.

At the conclusion of the meeting a hearty vote of thanks was tendered both speakers.

## Local.

The bank of Nova Scotia on Strathcona is a safe that is as safe and as near burglar-proof as they make them. More than a month ago something went wrong with part of the combination lock of the cash box and it was found impossible to open it by the numbers. Head office and the makers of the safe were communicated with but the only advice they could give was to drill the lock. Mr. George Sanderson of Edmonton, who has had considerable experience opening safes, was engaged to undertake the job. He, together with Ed. Loeb, as assistant, worked steadily for a month drilling the excessively hard metal protecting the lock and on Tuesday last their efforts were rewarded with success and the doors were opened.

Strathcona Plaindealer: The Calgary papers, particularly the Herald, is in a terrible state of excitement about the distribution of constituencies in Alberta. The fact that thirteen constituencies out of twenty-five are north of Red Deer, has been the Herald to fame and foam in a most extraordinary manner. They consider the arrangement the most enigmatical gerrymander ever perpetrated. They present a map to il-

lustrate their point, and really the appearance of the map proves the utter fallacy of their argument. Calgary people seem to imagine that all the immigration of the last five years has been in the south country, when as a matter of fact the north country has been filling up at an equal if not a greater rate. Calgary's eagerness for capitalistic honors has got away entirely with the candor and good judgment of the Herald.

President Sizel of the Bell Telephone Co., in giving evidence before the Parliamentary committee last week said he did not object to connecting with lines properly standardized. There were a greater number of places where the Bell gave connection to companies than where they refused. They offered to give connection with the municipal system which it was proposed to establish in Edmonton, and to give all other assistance required. In reference to the Neepawa system, Mr. Sizel said that the people of Neepawa were more favored than the Bell's regular subscribers, so there should not be any complaints there. He did not know local conditions there, but his policy would be to allow connection if the system was standardized. Mr. Sizel said that, in his opinion, his own instruments were the best, but he would not admit that the use of these instruments was a necessary condition of giving connections.

## WANTED.

GOOD AGENTS FOR THE  
Oliver Typewriter

IN ALL

UNOCCUPIED TERRITORY

Over 100,000 of these machines have been sold in the U.S. within the last few years at the same price which is being charged for any other standard typewriter. This proves conclusively that the OLIVER is the very best machine made regardless of price.

As there is now in Montreal a factory devoted exclusively to the manufacture of this machine, it can be bought in Canada for the same price at which it is sold in the U.S. without adding from \$25 to \$30 to cover duty and charges, as do all the other standard writers.

This should be a very attractive proposition to any purchaser of writing machines.

APPLY TO THE

CANADIAN OLIVER  
TYPEWRITER CO.,

183A T. JAMES STREET,

MONTREAL.

### A Calgary View.

The Calgary Albertan says:—A minister from Edmonton has undertaken to advertise that city as one of depravity and impurity, with the most appalling vice in high places. The Albertan is not well advised about the social doings of the people of Edmonton, but we are of the opinion that they are neither better nor worse than the people of any other city of Canada.

That class of people in the west called by some the society class, because they take more or less part in social amusements, compare very well in intelligence and uprightness with the same class of people in the east, besides being more interesting and decidedly more charming.

The Edmonton minister has singled out some incidents, some violations of the license law, an over zealous and not too temperate father, the indiscretions of some silly girls without chaperons at a poorly conducted party and from these incidents he goes after society in Edmonton generally, and reflects upon society indirectly in the west.

There are irregular doings in all classes of life. Extravagant doings and indiscretions have been committed in the church and by ministers of the gospel, and yet ministers maintain, and most properly that the rock of religion is in a way shattered by the fall of the week ones. In society circles there are some breaks, sometimes quite as bad as the Edmonton minister has pointed out, but that does not justify the minister in making out a case against all the good people in other parts of the west.

### Consideration, Not Obstruction.

[From the Toronto Globe.]  
Under existing conditions no good purpose would be served by prolonged obstruction in the debate on the North-West autonomy bills, but that does not mean that the details of the bills are not deserving of full consideration. Systematic and long-drawn-out obstruction might minister to the personal ends of the obstructionists, and it might be correspondingly wasteful to all other members, but it could not possibly

prevent the legislation or change its essential principles. By a vote of nearly three to one the principle of the educational clause was adopted, and under present circumstances involving both political parties and the whole political situation—it is utterly out of the question that, after committing itself so emphatically to that principle, the House should reverse its vote and drop the educational clause, even for the sake of being relieved from "irrelevant and irrational" speechmaking. The staying powers of its supporters are probably quite equal to those of the obstructionists, even to those of the Blucher from South York, and there is no night of dissolution at hand. Obstruction would be an expensive and useless waste of time, but consideration, serious, intelligent, detailed consideration, is demanded by the importance of the legislation and the interest of the provinces in its distinctive features.

It ought to be made plain in committee what the scope of the educational clause really is. The Premier has made it quite plain beyond misunderstanding that it was his desire and determination to continue in the new provinces the school system at present in operation in the Territories—a national system, allowing minority schools under conditions fixed by the school ordinances, subject to full control in matters of teaching, text-books, and inspection, of the Department of Education, and securing one half-hour of religious instruction each day. Mr. Sifton, although opposed to such legislation, compromised on an amendment that would secure what Sir Wilfrid desired, and that made impossible any form of sectarian endowment or clerical control. If Parliament must deal with the question at all, legislation such as that desired by the Premier and accepted by Mr. Sifton offers the minimum of objectionableness to any intelligent friend of national education in communities made up of minorities and majorities of Protestants and Catholics, or of English minorities and French half-breed majorities. That system as in operation in the Northwest is quite the best yet developed in Canada. Parliament has voted for the principle of continuing that system. Very well, that principle ought to be embodied in clauses so framed that even the members of Parliament themselves used not err in the reading and expounding of them. To this end every member who holds himself accountable to his constituents is bound to give consideration to the details of the legislation in order that justice as he conceives it may be done and that he may be able to give a reason for his vote. Such consideration would be useful, but obstruction would be stage-play.

## We Offer \$1,000

For a Disease Germ That Liquozone Can't Kill.

On every bottle of Liquozone we offer \$1,000 for a disease germ that it cannot kill. We do this to assure you that Liquozone does kill germs. And it is the only way known to kill germs in the body without killing the tissues, too. Any drug that kills germs is a poison, and it cannot be taken internally. Medicine is almost helpless in any germ disease. It is this fact which gives Liquozone its worth to humanity: a worth so great that, after testing the product for two years, through physicians and hospitals, we paid \$100,000 for the American rights. And we have spent over one million dollars in one year, to buy the first bottle and give it free to each sick one who would try it.

and Liquozone—like an excess of oxygen—is deadly to vegetable matter. Liquozone goes into the stomach, into the bowels and into the blood, to go wherever the blood goes. No germ can escape it and none can resist it. The results are inevitable. For a germ disease must end when the germs are killed. Then Liquozone, acting as a wonderful tonic, quickly restores a condition of perfect health. Diseases which have resisted medicine for years yield at once to Liquozone, and it cures disease which medicine never cures. Half the people you meet—wherever you are—can tell you of cures that were made by it.

### Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquozone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.

**Antenna**—Anemia, Bronchitis, Blood Poisons, Bright's Disease, Bowel Troubles, Coughs—Colds, Consumption, Colic—Cramp, Constipation, Catarrh—Cancer, Diabetes, Dropsy, Eczema, Gout, Hay Fever, Influenza, La Grippe, Leucorrhea, Liver Troubles, Malaria—Scars, Skin Heart Trouble, Piles—Furunculosis, Rheumatism, Scalds—Scalds, Stomach Troubles, Throat Trouble.

### Acts Like Oxygen.

Liquozone is not made by compounding drugs, nor is there any alcohol in it. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. This process has, for more than 20 years, been the constant subject of scientific and chemical research.

The result is a liquid that does what oxygen does. It is a nerve food and blood food—the most helpful thing in the world to you. Its effects are exhilarating, vitalizing, purifying. Yet it is an absolutely certain germicide. The reason is that germs are vegetables.

Sewerage:—Waterworks, sewer system, telephone system, electric lighting system, all owned and operated by the city.

Board of Trade:—President, A. B. Campbell, Vice-President, A. T. Cushing, Secretary, F. T. Fisher.

Educational Institutions:—Public and separate schools, high school, Alberta College.

CHURCHES:—Roman Catholic, Anglican, Presbyterian, Methodist Baptist, German Baptist, Lutheran, Salvation Army.

TRAIN SERVICE:—Leaves for Strathcona 7.45 and 10.39. Arrives from Strathcona 9.15 and 10.50.

## LOCAL

—Train on time.

—Lecture practice to-night.

—Wednesday being a public holiday no issue of the Bulletin will be printed.

—The executive of the Young Liberal Association meets in Gariepy Hall this evening.

—The Alberta conference of the Methodist church meets at Calgary this week.

—Lilje's store at Bruderheim is reported to have been burglarized one night last week.

—Baseball meeting at the Windsor hotel at 8.30 this evening. All members are requested to be out.

—A party consisting of Messrs. Bishopric, Fins, Belcher and Richardson visited Morinville last week.

—Saunders' survey party came in on Saturday from their camp on the 15th base line. Mr. Saunders came in on Friday.

—Members of the cricket club are reminded of the general meeting to be held at 8 o'clock this evening in Mr. Jellet's office.

—Rev. Canon d'Easum of Fort Saskatchewan preached in All Saints church morning and evening yesterday.

—A slight shower fell during the night and early this morning a light but steady rain set in which still continues and will be of immense benefit to crops of all kinds.

—Owing to the concert in the Presbyterian church this evening in aid of the Y.M.C.A. there will be no Young People's meeting in the Baptist and Methodist churches.

—A slight shower fell during the night and early this morning a light but steady rain set in which continued until noon.

—During the past week the public hospital has received the following donations: Ladies of the Macabees of the World, Edmonton Div. \$5, with a promise of more to follow; and Excelsior public school, \$1.30.

—Mr. E. W. Lawson, secretary of the Standard Loan Co. of Toronto, spent a few days in the city last week. He was surprised and pleased with the advancement and prospects of city and district.

—The hockey club will hold a "promenade" in the Thistle rink on Friday evening, May 26. It will be an entirely informal affair and evening dress will not be worn. Clarke's orchestra will provide music for dancing from 9 to 12.

—The C.P.R. will probably begin the construction of two branch lines east and west from Saskatoon this summer. It is understood that this is a portion of the business which was brought before the president, Sir Thomas Shaughnessy, by William Whyte, on his recent visit to Montreal.

—The first meeting of the Strathcona Industrial Exhibition Association which takes the form of a race meeting, will be held in their grounds, Strathcona, on July 4th and 5th. Prizes to the value of \$2500 will be distributed and a splendid meeting is expected.

—Calgary Herald: Parson's Clearwater and Smith's Prince Vale have been matched for a race at Edmonton during the fall. The distance is one mile, heats three in five. The bet is \$1,000 a side and a deposit of \$40 each has been put up by the owners. The balance has to be put up by June 20.

—Calgary Herald: The license commission adjourned today until June 20, at which time a large number of applicants will be given a second hearing. While there were no protests filed, five licenses were refused outright, and many others will be subject to a second inspection for various reasons, chiefly because they do not comply with the requirements of the law.

—A terrible tragedy is reported from near Sandou, B.C. as follows:—A friend going on a visit found a horrible state of affairs at the cabin of Gus and Chas. Kumlin, a quarter of a mile east of Alamo Siding. Both occupants were found dead, one lying on the cabin bed with several ugly slashes on the head, evidently done with an axe, the other was lying on the floor, with a double barreled shotgun near: the top of his head was blown off. Nothing is missing from the cabin; the door was fastened from the inside, but the window was broken. There was not much sign of hard fighting. The dead appears to have been done by one brother killing the other while asleep. Both men were steady workers in the mines round Sandou.
